## PROFESSIONAL PROFILE

FrontEnd Developer specialized in React.js, Angular, and WordPress. I focus on creating accessible, responsive interfaces following best coding practices. I have experience in dynamic projects, e-commerce, and content management within enterprise environments. I excel at integrating APIs, optimizing performance, and collaborating with multidisciplinary teams to deliver scalable, user-centered solutions.

## EXPERIENCE

### VML – Marketing Agency

#### *Authoring Site Analyst | August 2025 – Present*

I work as a FrontEnd developer within the VML team. I update and manage content in Adobe Experience Manager (AEM), implementing headers, footers, and global components. I develop and edit interactive forms, HTML templates for email responses, and apply inline styles in rich text components. I collaborate with design, marketing, and content teams to ensure visual consistency, accessibility, and quality in the publishing of corporate websites.

### ADVERBUILD – Digital Marketing Agency

#### *FrontEnd Developer (part time) | March 2025 – August 2025*

I worked as a web developer at Adverbuilt, a digital agency focused on marketing campaigns. I built and maintained responsive landing pages, ensuring layout fidelity and cross-device compatibility. I also implemented key plugins in WordPress environments and collaborated with design and content teams to deliver optimized and user-friendly web experiences. I provided technical solutions aimed at improving performance and conversion rates.
